THE SUBJECT OF THE LICENSE IS SPECIFIED IN THE THIRD SECTION. YOU CAN START READING FROM IT, AND THEN GO BACK TO THE BEGINNING – SO IT WILL BE EASIER FOR YOU TO CHOOSE THE RIGHT LICENSE.

This license (this “License”) constitutes a formal agreement which you irrevocably and unconditionally enter into as you pay your Invoice or your Online Order. You are also deemed to have obtained the License, agreeing to all of the terms and conditions of the License and the Invoice or the Online Order, when you have started actually using the font, either as an artwork or as software.

Whether you are an individual or a corporate entity, for the convenience of using this License, you are referred to hereinafter as the “User” or the “Payer” if the User and the Payer are not one and the same person.

This License has been issued by Sole Trader Gayane Bagdasaryan (the “Licensor”). The Licensor represents and warrants that the Licensor has full power and authority to issue this License and enter this License Agreement.

Font products are protectable under the laws of the Russian Federation both as artworks (in respect of the Font) and as computer programs (in respect of the Font Software).

The font (the “Font”), copyrighted as an artwork, consists of individual glyphs (each, a “Glyph”) used to compose various texts (each, a “Text”, and collectively, “text”).

The User is hereby granted a non-exclusive right and authorized to use only the font style which is specified in the Invoice or in the Online Order (the “Font Style”). The User has no right to use any other style of the Font. Each font style is a complete individual author work product. The Font Style named in the Invoice or the Online Order is referred to as the “Font” in the License.

The font software (the “Font Software”, or “Font files”), copyrighted as a computer program, includes the relevant Font Style and appropriate software instructions. A copy of the Font Software is made available to the User in the OTF format unless otherwise specified in the Invoice or in the Online Order.

The Font and the Font Software are collectively referred to hereinafter as the “Products” and each individually, as the “Product”. The right granted by the Licensor to the User to use the Font in any specific manner authorizes the User no use the Font Software, and vice versa.

The specific type of purchased license, the types of the Font, specific Font Style and Font Software, together with other material terms and additional restrictions of the License are identified and specified in the Invoice or in the Online Order.

The extent of the use of the Font and the version and build of the Font Software, authorized non-exclusively on the basis of the Invoice or the Online Order, is set out in the License and its specific revision, subject to the restrictions set out in the Invoice or in the Online Order. No use of the Font or the Font Software other than expressly set out in the Invoice or in the Online Order is authorized to the User. Depending on the use and extent of use of the Products by the User, the Licensor offers different types of licenses. The grant of this License implies no authorization for the User to use the Products otherwise than authorized by any license of any other type.

The use of the Products is authorized against payment of license fees.

1.1. If the License is obtained by way of payment of the Invoice, all terms and conditions of the offer not expressly set out in the License shall be specified in such Invoice. The payment of the license fee set out in the Invoice constitutes the acceptance of the offer in its entirety and, respectively, the User’s agreement to terms and conditions of the License and the Invoice. This license agreement shall be deemed entered into by and between the Licensor and the User (and the License as granted to the User) upon the acceptance of the offer by the User (or, respectively, payment of the Invoice by the User or by the Payer).

1.2. The Invoice must be paid within seven (7) days which constitutes the period of acceptance of the offer unless otherwise provided in the Invoice. The Licensor may revoke the offer at any time before or at its acceptance.

1.3. The User acknowledges and agrees that the User has read and understood the text of the License enclosed with the Invoice prior to obtaining the License.

IN SIMPLE TERMS

You need this license to use the font in applications.

If there is something unclear about the license or you are in doubt about what type of license you need, then drop us a line at hello@brownfox.org.

This license was issued by Gayane Bagdasaryan (hereinafter referred to as Licensor).

Typeface is protected by law as a work of graphics (Font) and as a computer program, software (Font Software).

Font is a work of graphics (art), a drawing that you see.

Font Software is an OTF or other font format file.

Neither the Font nor the Font Software is sold. The right to use the Font and the right to use the Font Software are sold. These are different rights, you can buy them together or separately. You can’t use the Font or Font Software for free.

We have several types of licenses. Each license authorizes something and prohibits something. You need to choose the license that suits you. You can only use the font as described in the license you purchased. What you bought is indicated in the invoice.

The person who paid for the license is the Payer. The one who uses the font is the User. You can be both a Payer and a User at the same time.

You are purchasing a non-exclusive license. This means that anyone else can also buy a license and use this font.

Each typeface (for example, Gerbera) consists of styles (for example, Regular). The license is sold for certain styles. If you have purchased a license for, for example, Gerbera Regular, you cannot use, for example, Gerbera Medium.

If you paid for the license and/or started using the font, then you agree with everything that is written here.

14.4. The User understands that if the User uses the Font and/or the Font Software without prior contractual authorization, such non-contractual use will infringe on the Licensor's exclusive rights thereto. Subsequent acquisition of any relevant license by the User shall not release the User from any liability for any such earlier committed infringement. The parties may enter into a separate agreement to settle any issue of any earlier unauthorized use of the Font and/or the Font Software.

14.5. The User is not authorized to redesign the Font Software, alter or modify the character composition, or reverse-engineer or otherwise interfere with the Font Software file.

14.6. The user is not authorized to create any derivative font product (a font or font software) based on the Font or the Font Software. The User is not authorized to redesign any individual Glyph unless otherwise expressly provided by the License.

14.7. The User is not authorized to use the Font or the Font Software in composite works.

14.8. The terms and conditions of the version and revision of this License as posted on the copyright holder's website as of the time of acquisition of this License are binding on the User.

14.9. If there is any discrepancy between the texts of this License in the Russian language and its translation into any other language, the Russian language version of the License shall prevail.

14.10. If the User proposes to use either Product in any manner not authorized by this License, the User must enter into a separate license agreement with the Licensor and purchase an additional custom license. Any use of either Product in any manner not expressly authorized by this License or in an extent exceeding the limits authorized by this License constitutes an infringement of the Licensor's exclusive right to such Product.

14.11. The User is not authorized to use the Font or the Font Software in any complex objects unless expressly authorized by this License.

14.12. The User must ensure protection of the Font Software and any existing backup copy of the Font Software against unauthorized copying or network access not expressly authorized by this License.

14.13. The User is not authorized to create any product where the form of one or more Glyphs determines the form of such product in whole or in part, such as any object in the form of any Glyph character or any element of any Glyph.

14.14. The User is not authorized to use either Product under this License, even if commerce in such products is legally permitted in any relevant jurisdiction, in respect of such goods, services and advertising as pornographic products, recreational substances, tobacco products and weapons.

14.15. Each and every reproduction of any Glyph constitutes a new copy of the Font created as an artwork. Any reproducer or distributor of any copy of the Product must therefore have the Licensor's appropriate authorization for each and every such reproduction or distribution, unless otherwise expressly provided by the License, except where such reproduction or distribution does not exhaust the copyright holder's rights in respect of any lawfully commercialized copy of the Product.

14.16. The use of the Font and the Font Software is authorized only to the User named in the Invoice or in the Online Order.
